

OTH 870: DOCTORAL ORIENTATION

Students will be introduced to advanced study within the post-professional occupational therapy doctorate program and institutional tools and resources supporting effective online learning at Mary Baldwin University. Activities within the course will allow students to begin to develop collaborative learning relationships with peers and faculty. Students will also establish a vision and structured plan for their professional development and advancement; which will include an initial exploration of knowledge translation project options that will support their professional advancement vision.

Credits: 3
