

OTH 881: EXAMINATION OF RESEARCH METHODS

Students will survey the most common quantitative, qualitative, and mixed methods research methodologies and designs that contribute to the knowledge base in occupational therapy practice. Students learn how to develop IRBs, interpret basic descriptive, correlational and inferential quantitative statistics, code, analyze, and synthesize qualitative and quantitative data and analyze and report study outcomes and findings. Students will focus their study in this course on the bodies of knowledge and research methodologies that might best support their knowledge translation project. Prerequisite 880

Credits: 3

Department: [Occupational Therapy](#)
