

PTH 823: DOCTORAL PROJECT 2

This course is the second in a sequence that leads to the completion of a culminating project for the DPT curriculum. Students will select an area of concentration that includes clinical practice, research, education, community service, or advocacy. A student will work with a faculty advisor to develop, plan, and implement a project that will be presented at the completion of the 2nd year prior to beginning final internships. The student is expected to incorporate the use of evidence into the project demonstrating entry-level skills in the synthesis and application of research.

Credits: 2
