

PTH 865: CLINICAL EDUCATION 4

This 10-week, full-time clinical learning experience is the final of two terminal clinical education courses. The course is designed to allow students the opportunity to demonstrate competence in physical therapy evaluation and treatment, applying sound scientific rationale and incorporating clinical reasoning and clinical decision-making skills in all aspects of physical therapy care. Students may affiliate in any PT setting depending on availability of sites and student interest, provided the site and population is different from their prior 10-week clinical rotation. This course is offered only on a pass/fail basis.

Credits: 8

Department: [Physical Therapy](#)
