

NUR 612: TRANSLATIONAL NURSING IN PRACTICE

The capstone course presents an evidence-based approach to integrate theory, current evidence, clinical judgment, and interprofessional perspectives using the translational process to improve practice and associated health outcomes for patient aggregates. The capstone project is a culmination of knowledge acquired from previous courses involving health policy, finance, health care delivery systems, practice issues, health promotion, disease prevention, and biostatistics. Capstone project development allows the student an opportunity to engage a team approach in translating evidence into practice.
