

BIOL 401: SENIOR RESEARCH (M)

This research seminar includes the experimental portion of the senior research project developed during BIOL 381 and 400, combined with a lab meeting format in which to present results, including formal oral presentations of the project. The student prepares a written thesis and conducts an oral defense of it, and takes the Major Field Achievement Test in Biology.

Credits: 2

Prerequisites:

BIOL 400. Spring.

Department: [Biology](#)
