

BIOL 402: SENIOR COLLOQUIUM (M)

This colloquium includes the completion of a critical review of the research literature focused on the topic developed during BIOL 381 and 400, combined with small group meetings to discuss progress on a comprehensive critical review paper, including formal oral presentations of the topic. The student prepares a critical review paper and conducts a summary oral presentation of it, and takes the Major Field Achievement Test in Biology.

Credits: 2

Prerequisites:

BIOL 400. Spring.
