

CHEM 103: GEN, ORGANIC & BIOCHEMISTRY II (NQ)

This course is a study of the fundamental principles of chemistry, including atomic and molecular structure, common substances and reactions, and introduction to organic chemistry and biochemistry. This is the second course of the two-semester series. The series is terminal, designed for students who do not intend to take additional chemistry courses or a prerequisite course for students who need General Chemistry (121-122) but had no chemistry in high school. It is usually transferable only to specific programs in the Health Sciences field.

Credits: 4

Prerequisites:

CHEM 102. Lab fee.

Department: [Chemistry](#)
