

BUAD 250: GENDER IN THE WORKPLACE (G)

The goal of this course is to enable students to heighten awareness and understanding of gender identity and perception of gender roles. The course provides an overview of concepts, terminology, and research related to gender identity and gender roles as valuable background to then address the impact of gender in the workplace. We will explore workplace dynamics and identify both real and perceived impact of gender on career development and life planning. In addition, there will be an intentional exploration of strategies and tools to help students create a pathway to success—with success to be uniquely defined by the individual.
