

BUAD 310: INTERMED ACCTG I

This is a further consideration of issues developed in accounting principles courses. Assignments focus on preparation and use of meaningful financial statements. Among topics considered are present value concepts, cash and marketable securities, receivables, inventory valuation, current liabilities, and long-term investments.

Credits: 3

Prerequisites:

At least a 'B' in BUAD 211 or instructor permission.

Department: [Business](#)
