

HSCI 220: PRINCIPLES OF HEALTH EDUCATION

The course provides a foundational understanding of the professional field of health education for future educators and employers. Students will: identify and explore the theoretical and practical issues of the field of community and school health education; identify and apply health education principles to health challenges facing individuals, groups, and communities; and receive a fundamental understanding of the role of the health education in assessing, planning, executing, and evaluating the health challenges that impact the wellbeing of today's society.

Credits: 3
