

Consistent with federal and state regulations, institutions that offer any out-of-state activities related to credit-bearing courses such as online courses, field experiences (e.g., internships for credit, practicums), and recruiting or marketing of programs are mandated to follow the other state's laws and to obtain any necessary authorization to operate in that jurisdiction prior to conducting the activity.

To assist in the management of these requirements, Mary Baldwin University participates in the [National Council for State Authorization Reciprocity Agreements](#) (SARA). SARA is a "voluntary agreement among its member states and U.S. territories that establishes comparable national standards for interstate offering of postsecondary distance-education courses and programs. It is intended to make it easier for students to take online courses offered by postsecondary institutions based in another state." In instances where an activity is not covered by SARA, MBU must seek authorization or exemption from the state where the curriculum is accessed. MBU works with regulatory agencies in each state and the U.S. Territories to seek authorization, exemption, or permission to offer degree or certificate programs and courses to residents outside Virginia who wish to enroll in MBU distance learning education opportunities.

All guidance provided on this site assumes that MBU's presence in other states is on-line or specific to a field experience. Establishing an administrative or instructional site (i.e., physical presence) outside of the Commonwealth of Virginia carries significant and distinct review and approval requirements.

Institutional Professional Licensure Requirements

MBU Licensure Preparation Programs

Mary Baldwin University (MBU) has seven academic programs that are designed to prepare students for a career in a licensed profession upon completion of the program. A professional license is typically required for graduates of these programs to practice and/or gain employment in these fields. If you are considering applying to one of these programs and plan to be licensed outside of Virginia, please select the program link for more information regarding educational requirements for professional licensure in the U.S. states, commonwealths, and territories.

[Doctor of Physical Therapy](#)

The program has determined that its curriculum meets the state educational requirements for licensure or certification in all states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands secondary to its accreditation by the Commission on Accreditation in Physical Therapy Education, based on the following:

CAPTE accreditation of a physical therapist or physical therapist assistant program satisfies state educational requirements in all states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. Thus, students graduating from CAPTE-accredited physical therapist and physical therapist assistant education programs are eligible to take the National Physical Therapy Examination and apply for licensure in all states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. For more information regarding state qualifications and licensure requirements, refer to the Federation of State Boards of Physical Therapy website at www.fsbpt.org

NOTE: Completion of an authorized educational program does not guarantee licensure or certification. States may have additional requirements such as a background check, jurisprudence examination, recommendations, etc.

Mary Baldwin University recommends students consult the appropriate licensing agency or board in the respective state or territory in which they intend to practice before beginning any academic program or coursework. If students experience difficulty finding the license requirements for a specific state or territory, please contact the program director or admissions.

[Master of Science in Physician Assistant](#)

The program has determined that its curriculum meets the state educational requirements for licensure or certification in all states and the District of Columbia.

NOTE: Completion of an authorized educational program does not guarantee licensure or certification. States may have additional requirements such as a background check, jurisprudence examination, recommendations, etc.

Mary Baldwin University recommends students consult the appropriate licensing agency or board in the respective state or territory in which they intend to practice before beginning any academic program or coursework. If students experience difficulty finding the license requirements for a specific state or territory, please contact the program director or admissions.

[Doctor of Occupational Therapy](#)

ACOTE® accredited occupational therapy and occupational therapy assistant educational program satisfy the states' educational requirements in all states, the District of Columbia, and Puerto Rico. Students graduating from an ACOTE® accredited occupational therapy and occupational therapy assistant program are eligible to take the National Board for Certification in Occupational Therapy (NBCOT) certification examination and apply for licensure in all states, the District of Columbia, and Puerto Rico. For more information regarding state qualifications and licensure requirements, please refer to the [AOTA State Licensure](#) webpage.

NOTE: Completion of an authorized educational program does not guarantee licensure or certification. States may have additional requirements such as a background check, jurisprudence examination, recommendations, etc.

Mary Baldwin University recommends students consult the appropriate licensing agency or board in the respective state or territory in which they intend to practice before beginning any academic program or coursework. If students experience difficulty finding the license requirements for a specific state or territory, please contact the program director or admissions.

[Doctor of Nursing Practice](#)

The program has not yet determined which states and US territories its curriculum meets the state educational requirements for licensure or certification.

NOTE: Completion of an authorized educational program does not guarantee licensure or certification. States may have additional requirements such as a background check, jurisprudence examination, recommendations, etc.

Mary Baldwin University recommends students consult the appropriate licensing agency or board in the respective state or territory in which they intend to practice before beginning any academic program or coursework. If students experience difficulty finding the license requirements for a specific state or territory, please contact the program director or admissions.

Below is a link to the National Council of State Boards of Nursing to review the licensure requirements in your state.

Post Baccalaureate Teacher Licensure

We go beyond preparing superior teachers. We offer degrees in high-demand fields including Teacher Education, Higher Education, and Applied Behavior Analysis. In today's classroom, we identify the greatest needs and fill the gaps. So well, in fact, that 77 percent of our graduates teach in areas with the most critical shortages in Virginia. Our Teacher Education program prepares classroom leaders who lead, collaborate, include, and innovate. [Learn about our Conceptual Framework](#), the values and priorities that drive our mission to prepare reflective and knowledgeable teachers for the field.

Student Rights

Student Rights under a State Authorization Reciprocity Agreement (SARA)

Students who reside in a State Authorization Reciprocity Agreement (SARA) state who have a complaint about MBU need to go through the [institution's grievance policy](#).

Students not satisfied with the outcome of MBU's grievance process involving specific allegations of fraudulent activity, including the provision of false or misleading information, may subsequently submit a complaint to the State Council for Higher Education for Virginia (SCHEV) for final resolution.

Examples of types of student complaints that may be brought to a SARA portal entity include, but are not limited to, complaints regarding accuracy of job placement data, tuition or fee information, accreditation, whether a program meets licensure requirements, or course transfer information. Grade appeals and student conduct appeals are not allowed under SARA.

State Council of Higher Education for Virginia
101 N 14th St, 9th Floor
Richmond, VA 23219

Policy on Refunds and Cancellations

Pro Rata Refund Procedures

The Higher Education Amendments of 1992 define a pro rata refund as a refund to a student of not less than that portion of the tuition, fees, room, board, and other charges minus any unpaid student charges, and minus

a reasonable administrative fee assessed the student equal to the portion of the enrollment period for which the student has been charged on the date the student notifies an administrative office that they are withdrawing. In some cases the last day of attendance as documented by faculty at an academic related activity may be used.

The pro rata refund is applicable to students who completely withdraw from the institution up through the 60.000 percent point in the semester (beginning of classes to the end of exam period). At the 60.001% mark or later, refunds are not granted, and students have earned 100% of their financial aid for that semester.

There is no additional charge for attending the May Term for currently enrolled full-time (either fall or spring) residential or commuter students.

For students subject to the institutional refund policy, the MBU Student Account Office calculates a federal refund amount according to regulatory requirements.

Federal law requires federal funds to be returned in the following order: Unsubsidized Direct Loans, Subsidized Direct Loans, Direct PLUS Loans, Federal Pell Grants, FSEOG Grants, Federal TEACH grants, Iraq and Afghanistan Service Grants.

Please note that if a student has a federal student loan, any type of withdrawal or leave causes the student to be reported as "withdrawn" to the National Student Loan Database. The student's federal loan grace period will begin from the date of determination, which is the date the student provides official notification to the institution requesting to withdraw or take a leave of absence. Unofficial withdrawals (where a student ceases attendance without providing official notification to the institution) that result in a student's failure to earn a passing grade in any class will be subject to Return of Title IV Funds regulations based on the 50% point in the semester or the faculty reported last date of attendance. The institution charges are not reduced if the student does not officially withdraw. Contact the Financial Aid office for more information.

If you need additional Financial Aid information for MBU please visit the [Financial Aid](#) information in the academic catalog.

Substantive Change

If for any reason the University cannot fully deliver the instruction for which the student has contracted there are processes in place to deliver alternative instruction or reasonable financial compensation.

MBU follows the guidelines set by SACSCOC in the [Substantive Change manual](#) to ensure that students have the opportunity to complete their program of study.

Catastrophic Events and Continuity of Operations

Operational Systems

The university leverages highly available educational technologies such as the Learning Management System (Canvas) and the Jenzabar Student Information System. These and many other platforms are housed in the "cloud" to minimize the likelihood of noticeable service interruption. The Office of Information Technology has policies and resources that ensure that systems are protected from vulnerabilities, adequately secured, and backed up to prevent record destruction and/or data loss.

Ensuring Continuity of Operations & Emergency/Crisis Response

MBU mitigates the impact of crisis situations and operational disruptions on its campus community through the implementation of policies and procedures that provide for continuity of operations in cases of catastrophic events.

- Permanent Academic Records are digitized and stored on a secure network.
- Refund policies provide guidance for ensuring that financial refunds are processed timely and consistently and in accordance with MBU policy and applicable federal, state and accreditation requirements. In the event that a catastrophic event occurs, the university maintains the authority to enact additional financial refunds to students that are deemed appropriate during such circumstances.
- Emergency Operations Plan (EOP) and the IT Systems Disaster Recovery Plans provide detail emergency instructions for MBU faculty, staff, students, and visitors to ensure safety and protection of property during fire, severe weather, loss of utilities, and other emergencies.

Program Discontinuances

In the unlikely event that MBU cannot deliver the instruction for which students have enrolled, the university commits to one or more of the following courses of action, depending on each individual student's needs:

- Providing a reasonable alternative for delivering instruction and/or services for which students have paid
- Providing reasonable financial refund for the education students did not receive
- Providing assistance for transferring earned credits to other institutions

MBU students will be notified in person by university administration and then counseled about their options by their advisors. In accordance with institutional accreditation requirements, a teach-out plan will be submitted to the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) prior to its implementation.
