

NUR 903: DNP SCHOLARLY PROJECT II

This course is the second in a series of four courses that will guide the students to translate the research into practice by critically appraising and applying available data and research to achieve a better understanding of clinical decision making. The students will use their practice to generate evidence that will serve as parameters in guiding improvements in practice and patient care outcomes. In this course the students will develop a DNP Scholarly Project proposal that will include a conceptual/theoretical framework, project design and methodology, analysis of projected outcomes and significance, and IRB application. The semester will culminate with an oral presentation of DNP scholarly project proposal.
