

## ABA 589: ADVANCED PRACTICE & EXPERIENTIAL SKILLS

This advanced 45-hour course provides graduate students additional opportunities to further refine and extend their skills in professional practice through a combination of didactic instruction and experiential skills-based learning. This course builds upon the instruction and experiences of ABA 588 with special emphasis on more advanced practice skills (e.g., supervision, mentorship, consultation). Issues related to culture, diversity, equity, and inclusion will also be incorporated. [graded P/NC]

**Credits:** 3

**Prerequisites:**

ABA 588

**Department:** Applied Behavior Analysis & Autism Studies
