

ECON 401: SENIOR PROJECT (M)

The Senior Project requires the economics major to design and implement a major independent research project on a topic of interest to the student. The project draws on a student's mastery of economic theory and quantitative reasoning and results in two written and oral presentations. The student is expected to discuss an appropriate research topic with economics faculty before the beginning of the course.

Credits: 3

Prerequisites:

INT 222 and ECON 254 or ECON 303.

Department: [Economics](#)
