

## NUR 715: TRANSLATION THEORY AND RESEARCH IN NURSING

This course is designed to support an understanding of concepts in knowledge translation (KT), methods, and models for evaluation of research, and findings to translate knowledge into best practice protocols. A translational model is used to support knowledge translation from scholarly evidence that will influence outcomes. The steps in the research process are examined to support a comprehensive plan in preparation for the scholarly project. The content includes the development of a research question, identifying an appropriate sample, identifying appropriate strategies for data collection and analysis, and emphasizing the importance of the protection of human subjects. The course provides the students with a foundation for developing a scholarly proposal.

**Credits:** 3

**Department:** [Nursing](#)
