

HSCI 205: INTRO TO HUMAN ANATOMY & PHYSIOLOGY

This course is designed as a one semester introduction to anatomy and physiology with a virtual laboratory experience. Students will gain an understanding of the anatomic structures and physiologic functions of the human body. Topics to be covered include basic organization of the body and the impact of diseases on certain systems. Students will also learn about the mechanisms for maintaining balance in the body and the roles of different body systems. This class is designed for non-science majors and may not satisfy prerequisites for graduate study.

Credits: 3
