

HSCI 402: SENIOR PROJECT HEALTH SCIENCE (M)

This course is the second semester of the two-semester senior requirement for health science majors. In this course, students will complete an evidenced-based capstone project related to health. The project will follow one of three possible project designs: experimental research, literature review, or community-based health education. For each project, students will critically evaluate published studies related to their topic. Each student will present the design, results and conclusions of their project in both a written and oral presentation.

Credits: 3

Prerequisites:

HSCI 401

Department: [Health Sciences](#)
