

ASD 643: ASD: PRACTICUM EXPERIENCE

This graduate practicum experience concludes the Autism Sequence. It is intended to be a culminating experience so that students have an opportunity to concretely demonstrate skills, techniques, and strategies learned in the previous three courses. This course requires that students complete a practicum experience (minimum of 70 in-class hours) in a setting that serves children with Autism Spectrum Disorder. This could include a self-contained setting, an inclusive setting, or a combination of the two; the population served must be between the ages of 2 and 21, inclusive. This course is offered at the GR and UG level; students enrolled in GR level versions of this course will expect more readings and assignments and are held to higher expectations in terms of rigor and magnitude of expected output to demonstrate mastery.

Credits: 3

Prerequisites:

ASD 640

ASD 641

ASD 642

(or co-requisites)

Department: Applied Behavior Analysis & Autism Studies
